

*Bachelor*  
**(PÖ4c, PÖ5a, PÖ5b, PÖ6b)**

<i>Title:</i>	<b>Experimental Economics</b>
<i>Lecturer:</i>	Alex Roomets, Ph.D.
<i>Language of Instruction:</i>	English
<i>Lecture / Tutorial Hours per Week:</i>	2L / 2T
<i>Day / Time / Room:</i>	L/T: Wednesday, 14:00 – 16:00, AWI Lab, Campus Bergheim L/T: Thursday, 14:00 – 16:00, CB 01.030
<i>Start:</i>	October 12, 2011

*Objective/Content:*

Students in Experimental Economics will learn how to apply the scientific method to economic theories. The class will mainly focus on experimental design and methodology but will also touch on topics such as market theory, game theory, and behavioral theory. Grades will be based on class examinations as well as an individual or group experimental project. Class time will be split between lecture and lab sessions where students will participate in economic experiments.

*Reading List:*

Charles Holt (2006). *Markets, Games, & Strategic Behavior*. Pearson-Adison Wesley.  
Various journal articles (t.b.a. in class).
