"Field Experiments on Fundraising"

Two field experiments on fundraising examine the consistency of giving behavior in a revealed preference framework; study the efficacy of different fundraising schemes (in particular, announcements of lead gifts; matchings and reminders); pin down transaction costs of giving and point to the relevance of regret when choice sets change over time.

Talks and Research Visits

On May 14, Jürgen Eichberger presented a paper at the Bonn University, Department of Economics: "Are the Treasures of Game Theory Ambiguous?"
